OBJECTIVE

I'm a 12th grade student who enjoys technology. I am currently studying IT at a trade school. I'm looking for chances to get more experience in all areas of IT. I'm good at adapting to any workplace and I'm a fast learner open to any opportunities to learn.

SKILLS

- Proficient in Windows 10/11 and many Linux and Linux-based operating systems
- Basic PC hardware repair, component upgrades, and troubleshooting
- Familiar with entry level penetration testing tools in Linux

EDUCATION

Emmett O'Brien Technical High School - 12th Grade

Expected Graduation: 2027

Trade Focus: Information Technology

- Hands-on training in IT fundamentals, system setup, and troubleshooting
- Utilized lab/shop resources for personal skill development

CERTIFICATIONS AND COURSES

- Certiport Microsoft Office Associate(Word, Excel, and Powerpoint)
- TestOut(CompTIA) PC Pro Certificate
- TestOut(CompTIA) IT Fundamentals Certificate
- Cisco NetAcad Introduction to Cybersecurity

PROJECTS & PERSONAL EXPERIENCE

- Actively building/maintaining a Home lab/server
- Completed multiple Hack The Box cybersecurity challenges, practicing ethical hacking and Linux based security tools
- Upgraded and repaired several computers for friends and family
